SUMMARY

Award-winning creative & strategic leader with 16 years of in-house and agency experience—including a decade of B2B tech and digital trust. I think in systems, blend craft and pragmatism to get better-than-you-asked-for work out the door on time, and bring an uncanny ability to turn technical and opaque subjects into compelling stories. Long-time practitioner of the art of “plus one.” Mostly accidental voice actor. Makes a mean cacio e pepe.
